PANAMERICANA DEL BAJÍO
TENERÍA

1,650 MWh

ANNUAL PRODUCTION

960 kWp

INSTALLED CAPACITY

723 TON

ANNUAL CO_2 REDUCTION

1,500 PCS

N-TYPE BIFACIAL SOLAR PANELS

Tenería Panamericana del Bajío is a leather tannery in León, Guanajuato, specialized in retanning, dyeing and finishing leather for footwear and leather goods. A Leather Working Group certified supplier, it exports about 60% of its production.

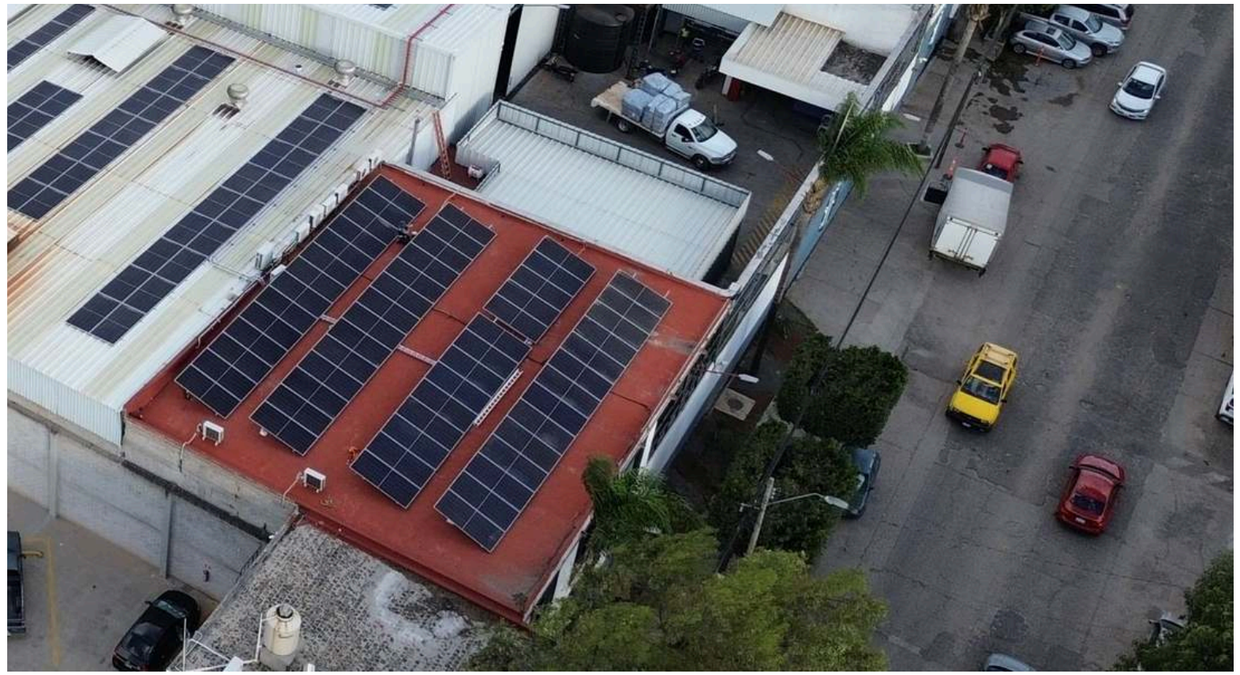

Our latest turnkey EPC project for the leather industry in León. Using 1,500 N-type bifacial panels on a lightweight rail mounting system and Growatt medium voltage inverters, our team delivered a 960 kWp rooftop plant on the tannery's industrial roofs. It is capable of producing 1,650 MWh annually, covering 31% of the tannery's consumption and reducing CO_2 emissions by 723 tons per year.

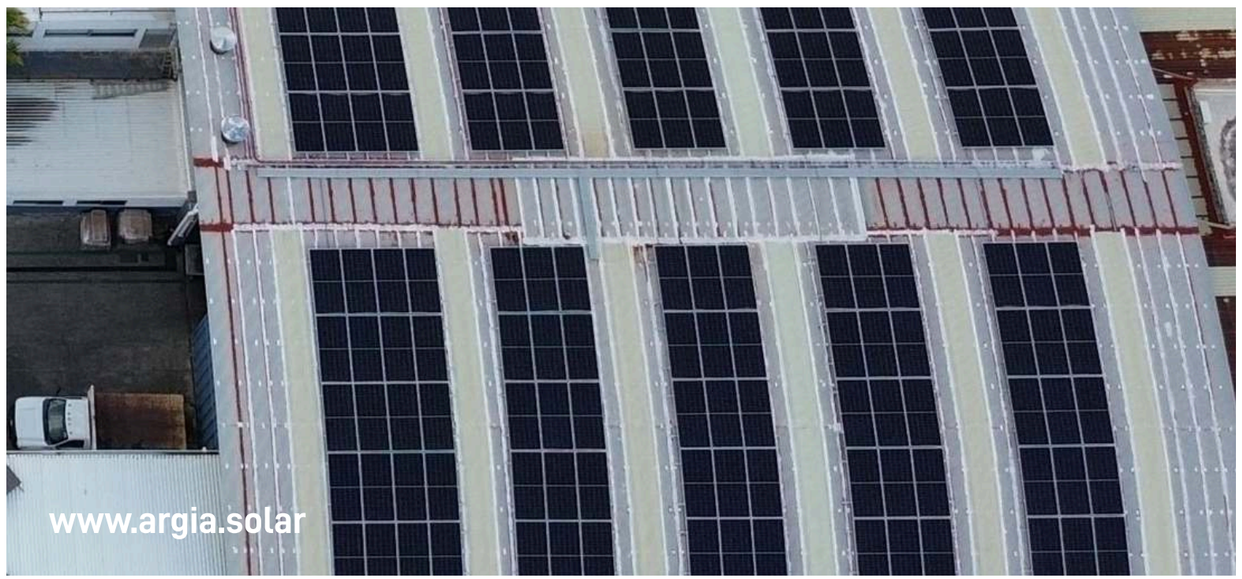

Solar Modules	Renesola RS5J-640NBG-E1
Inverters	Growatt MAX 125KTL3-X2 MV
Sustainability	31 %
Warranty	15 years
