

ROOF SOLAR SOLUTIONS

TETRA PAK, QUERÉTARO, MEXICO

ARGIA SOLAR

INSTALLED CAPACITY:	550 kWp
ANNUAL PRODUCTION:	1,235 MWh
CO ₂ SAVINGS:	537 Ton / Year

Number of panels	1,000 pcs
Type of panel	GCL, 550Wp, Bifacial
Number of inverters	5 pcs
Type of inverter	SE100KUS, SolarEdge
Optimizers	506 pcs, P1100 SolarEdge
Performance Ratio	91.5 %
Warranty	12 years

Argia Mexico proudly announces the successful completion of a groundbreaking project for Tetra Pak Mexico in Queretaro - a 550 kWp rooftop solar system. This innovative initiative marks a significant milestone in our commitment to delivering sustainable energy solutions across Mexico.

With this successful collaboration as a testament to our expertise and commitment to excellence, Argia Mexico stands ready to empower more businesses across Mexico to embrace renewable energy solutions for a brighter, greener future.

Tetra Pak is a multinational food packaging and processing company. The company offers packaging, filling machines and processing for dairy, beverages, cheese, ice cream, etc.

Utilizing state-of-the-art technology, including 1,000 bifacial solar panels, 5 SolarEdge inverters, and 506 SolarEdge optimizers, our team maximized both the quality and efficiency of the solution. By harnessing the power of renewable energy, Tetra Pak Mexico is poised to reduce its carbon footprint while achieving substantial cost savings.

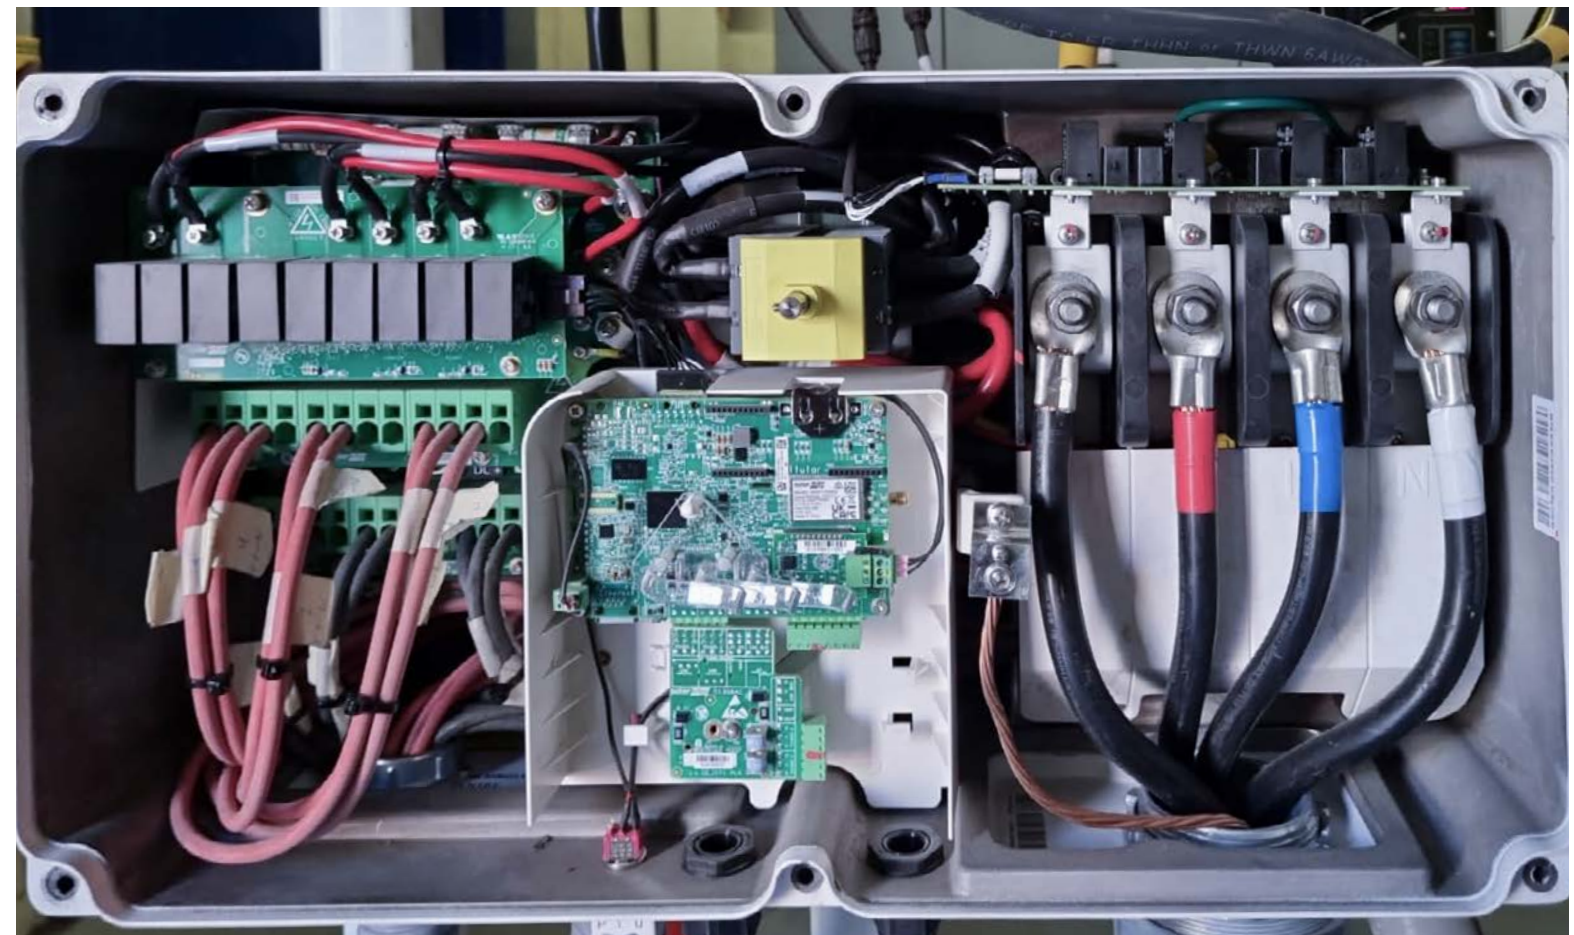

„This project exemplifies our dedication to driving positive change through energy innovation“

„We are proud to partner with Tetra Pak Mexico in their journey towards sustainability and look forward to continuing to support them in their future energy endeavors.“

Arturo González, Solar Director at Argia Mexico.
